

October 07, 2026

Dear Parent,

Greetings from The Spanish School of Abu Dhabi!

We hope you and your families are keeping well.

Your child's health and wellbeing are always at the heart of what we do, and we are pleased to share some information about an upcoming health screening initiative designed to support our students and promote their healthy development.

As part of our continued commitment to supporting the health and wellbeing of our students, our school will be participating in the **ADPHC School Health Screening Program for AY 2026/27**. The program aims to promote healthy development, identify health concerns early, and provide appropriate follow-up when needed.

Depending on the student's grade level, screening **may include height and weight/BMI, vital signs, vision screening, health education, immunization review, and other age-appropriate health assessments.**

Parents/Guardians will receive the **electronic consent form directly from ADEK or the SEHA screening team, as applicable**. Kindly review and complete the consent form once received.

Parent Awareness Session

ADPHC will also conduct an online awareness session for parents and guardians to provide further information about the screening pathways and electronic consent process.

21 October 2026

10:00 AM – 11:00 AM

A second session will also be available on 14 January 2027, from 10:00 AM – 11:00 AM.

We highly encourage parents to attend the session and take this opportunity to learn more about the program and how we can work together to support our children's health.

Thank you for your continued trust and cooperation.

Warm Regards,

Lorainne Eiffert
School Nurse
